Hello friends! I want to write this while playing this game...and im not sure why it does not work for me, but my friend says it works fine for them. The game suffers from a microsoft visual C++ runtime error that breaks the game for me personally. That is the whole reason why i am giving this game a negative review. I have tried to validate the integrity of the files already without sucess. Next, i plan to check my visual c ++ files and see which one it may of installed wrong.

NOT RECOMMENDED UNTIL RUNTIME ERROR is fixed. The game is pretty much non-playable for me until the runtime error issue is fixed.

NOTE: Depending on your pc, you may or may not have the runtime error. It does not happen with everyone. BE aware of this fact.. Hello friends!
